RE: Expanded Inpatient Capacity for Young Adults, Upgrades to Existing Services Including Children and Adolescent Units and Deferred Maintenance and Roof Repair

Dear Mr. Miskovich:

Thank you for your letters and related documents dated June 30, 2011 and July 18, 2011 describing the three proposed projects: 1) expanded inpatient capacity for young adults; 2) upgrades to existing services including children and adolescent units; and 3) deferred maintenance/roof repair.

The Department has reviewed the materials you submitted relative to the three referenced projects. Based on your representations, the projects described appear to be separate projects and each falls below the threshold for Certificate of Need review.

As the estimated total cost of each of the three individual projects are below the \$3,000,000 threshold for capital expenditures, the Department has determined that Certificate of Need review is not required. However, if there are any changes in the scope or cost of any of the three projects during implementation, the Department should be notified immediately so that we can determine whether the proposed change is subject to review.

If you have any further questions, please do not hesitate to call me at 802-828-2918.

Sincerely,

Donna Jerry
Health Policy Analyst
